### ROOT CANAL TIPS

You just had a Root Canal procedure done

- A root canal is a treatment to repair and save a damaged or infected tooth instead of removing it

Soreness and Discomfort

- For the next few days after the procedure you can expect some soreness and discomfort from the tooth that was treated

Diet

- Try to eat softer foods and avoid chewing on the side of the mouth the procedure was done

Prescriptions

- Stay on any pain medication the dentist has prescribed such as ibuprofen (600 mg every 6 hours)

Please call our office at (719) 301-6604 if you have any questions
