COLORADO SPRINGS

TEMPORARY CROWN TIPS

You just had a Temporary Crown placed

- A temporary crown protects your tooth while the permanent crown is being constructed

Oral Hygiene

- Brush the area where the temporary crown was placed normally
- When flossing, pull the floss through the teeth to avoid the crown from popping off

Diet

- Avoid chewy, crunchy, and hard foods such as bagels, taffy, caramel, gum, granola, etc.
- Avoid biting into foods like apples and corn on the cob

TEMPORARY CROWN TIPS

Temporary Crown Mishaps

- Temporary crowns are made of acrylic so it is possible it can crack or pop off
- If this happens give our office a call and we'll get you in right away

Generally, we'll get you in two weeks after your temporary crown procedure to get your permanent crown fitted

Please call our office at (719) 301-6604 if you have any questions
